Independent Auditor's Report

To the Board of Trustees
Window to the World Communications, Inc.

We have audited the accompanying financial statements of Window to the World Communications, Inc. (WWCI), which comprise the statement of financial position as of June 30, 2020 and 2019 and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Window to the World Communications, Inc. as of June 30, 2020 and 2019 and the changes in its net assets, functional expenses, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As described in Note 4 to the financial statements, the financial statements include investments valued at \$20,777,887 (42.9 percent of net assets) and \$20,630,395 (42.2 percent of net assets) as of June 30, 2020 and 2019, respectively, whose fair values have been estimated by management in the absence of readily determinable fair values. Because of the inherent uncertainty of valuation, management's estimate of values may differ significantly from values that would have been used had a ready market existed for these securities, and the differences could be material. Our opinion is not modified with respect to this matter.

To the Board of Trustees
Window to the World Communications, Inc.

As discussed in Note 2 to the financial statements, significant uncertainty exists surrounding the COVID-19 pandemic. Our opinion is not modified with respect to this matter.

Notes to Financial Statements
June 30, 2020 and 2019

(1) Organization

Window To The World Communications, Inc. (WWCI) is a private nonprofit corporation. WWCI owns and operates WTTW, a public TV station and a media production center, and WFMT, a commercial FM fine arts radio station and radio production center and distributor. WWCI's mission is to provide distinctive and diverse programming to Chicago and national audiences through broadcast, production, online and other media.

(2) Summary of Significant Accounting Policies

The accompanying WWCI financial statements have been prepared on the accrual basis of accounting. Significant accounting policies followed in the preparation of these financial statements are described below.

(a) Basis of Presentation

WWCI's financial statements have been prepared in accordance with U.S. generally accepted accounting principles (US GAAP) which require WWCI to report information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the organization. These net assets may be used at the discretion of WWCI's management and its Board of Trustees.

Net assets with donor restrictions: Net assets subject to stipulation imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of WWCI or by the passage of time. Other donor restrictions are perpetual in nature, where the donor has stipulated the funds be maintained in perpetuity.

Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statement of activities.

(b) Contributions

Contributions, including viewer marketing, received are recorded as net assets without donor restrictions or net assets with donor restrictions, depending on the existence and/or nature of any donor-imposed restrictions. Contributions that are restricted by the donor are reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the contribution is recognized. All other donor restricted contributions are reported as an increase in net assets with donor restrictions, depending on the nature of restriction. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

Contributed property and equipment are recorded at fair market value at the date of donation. Contributions with donor-imposed stipulations regarding how long the contributed assets must be used are recorded as net assets with donor restrictions, otherwise the contributions are recorded as net assets without donor restrictions.

(c) Program Service Revenue

Program service revenues are derived from various revenue sources which include, but are not limited to, TV and radio underwriting/advertising and local and national TV production contracts.

WINDOW TO THE WORLD COMMUNICATIONS, INC.
(A Private Nonprofit Corporation)
Notes to Financial Statements
June 30, 2020 and 2019

Viewer and listener marketing revenue consists of memberships (individual pledges) from on-air pledge drives and direct mail/telemarketing contributions.

TV and radio program underwriting/advertising revenue is recorded on a pro rata basis over the related broadcast period.

National TV production contract revenue is recognized on an estimated percentage-of-completion basis.

Accounts receivable consists of underwriting, advertising, and TV production contract receivables that are carried at original invoice amount. The valuation of the accounts receivable is based upon management's estimate of the collectability of such receivables. Management reviews trade accounts receivable on a consistent basis and follows up with those customers that are delinquent. Management records a specific reserve when the collectability of a receivable balance is uncertain. Management also records a 3 percent general reserve for trade receivables.

(d) Functional expenses

The costs of providing program and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among program, fundraising and general and administrative services which were benefited by those costs. Such allocations are determined by management on an equitable basis. Although the methods of allocation used are considered appropriate, other methods could be used that would produce different amounts. The expenses that are allocated include the following:

Expense	Method of Allocation
Salaries and benefits	Directly charged based on time tracked
Utilities	Direct expenditures
Occupancy	Direct expenditures
Debt costs	Direct expenditures and head count
Depreciation	Square footage and head count
Outside Services	Direct expenditures

(e) Federal and State Grants

Revenue from grants by the Corporation for Public Broadcasting (CPB) and the State of Illinois is recognized as unrestricted grant revenue as expenses are incurred on the underlying project.

(f) Operations

Operating results in the statements of activities reflect all day to day operating transactions which increase or decrease net assets without restrictions, except those related to donor-imposed restrictions or non-recurring transactions.

(g) Severance Expense

During fiscal years 2020 and 2019, WWCI recognized expenses of \$31,943 and \$550,196, respectively, as a result of severance benefits.

WINDOW TO THE WORLD COMMUNICATIONS, INC.
(A Private Nonprofit Corporation)
Notes to Financial Statements
June 30, 2020 and 2019

(h) Cash

WWCI maintains its cash with PNC Bank and CIBC Bank although amounts in bank deposit accounts may exceed federally insured limits at times, WWCI believes it is not exposed to any significant credit risk on cash.

(i) Investments

Investments are reported at fair value. For alternative investments, fair value is estimated as the net asset value per share provided by the investee as a practical expedient (as disclosed in Note 4). Investment earnings or loss (including realized gains and losses on investments, changes in unrealized gains and losses, interest and dividends) on investments that are not restricted by donors are included in investment returns in the statements of activities. Interest and dividend income is recorded on the accrual basis. Realized gains and losses are determined based on specific identification of securities sold.

WWCI's investments are exposed to various risks, such as interest rate, credit and overall market volatility. Due to these risk factors, it is reasonably possible that changes in the value of investments may occur in the near term and may materially affect the amounts reported in the financial statements.

(j) Property and Equipment

Under WWCI's capitalization policy, costs of acquiring property and equipment for purchases exceeding \$1,000 are capitalized. Depreciation is provided over the estimated useful lives of the respective assets on a straight-line basis. The useful lives used are as follows: building, 60 years or the remaining life of the lease; technical equipment and furniture and fixtures, 5 to 10 years; and leasehold improvements, the lesser of the remaining life of the lease or the useful life of the leasehold improvements.

(k) FCC Licenses

The cost of the WFMT license issued by the Federal Communications Commission (FCC) to WWCI has not been amortized since 1970. WWCI assesses the asset annually for impairment and believes there has been no decrease in the value of this license. In fiscal year 2018, WWCI acquired the FCC license to WYCC. The license is assessed annually for impairment.

(l) Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(m) Beneficial Interest in Trust

WWCI is the income beneficiary under a trust, the corpus of which is not controlled by WWCI. In the absence of donor-imposed conditions, WWCI recognizes its beneficial interest in the trust as a contribution in the period in which it receives notice that the trust agreement conveys an unconditional right to receive benefits. Beneficial interest in trust is stated at fair value.

Notes to Financial Statements
June 30, 2020 and 2019

(n) *Income Taxes*

WWCI received a determination letter from the Internal Revenue Service in December 1957 indicating that it qualifies as a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code and, except for taxes pertaining to unrelated business income, is exempt from Federal and state income taxes. No provision for income taxes was required for the fiscal years ended June 30, 2020 and 2019.

WWCI's application of US GAAP regarding uncertain tax positions had no effect on its financial position as management believes WWCI has no material unrecognized income tax benefits or liabilities, including any potential risk of loss of its not-for-profit tax status. WWCI would account for any potential interest or penalties related to possible future liabilities for unrecognized income tax benefits as income tax expense.

(o) *Risks and Uncertainties*

On March 11, 2020, the World Health Organization declared the outbreak of a respiratory disease caused by a new coronavirus a pandemic. First identified in late 2019 and now known as COVID-19, the outbreak has impacted millions of individuals worldwide. In response, many countries have implemented measures to combat the outbreak that have impacted global business operations. As disclosed in Note 10, WWCI received a Paycheck Protection Program term note pursuant to the Coronavirus Aid, Relief, and Economic Security (CARES) Act. As of the date of issuance of the financial statements, WWCI's operations have not been significantly impacted, but WWCI continues to monitor the situation. In addition, while WWCI's investment portfolio, results of operations, cash flows, and financial condition could be negatively impacted, the extent of the impact cannot be reasonably estimated at this time.

(p) *Subsequent Events*

The financial statements and related disclosures include evaluation of events up through and including December 11, 2020, which is the date the financial statements were available to be issued.

(q) *Adoption of New Accounting Pronouncements*

As of July 1, 2019, WWCI adopted the Financial Accounting Standards Board (FASB) Accounting Standards Update No. 2018-08, *Clarifying the Scope and Accounting Guidance for Contributions Received and Contributions Made*, which provides enhanced guidance to assist entities in (1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) or as exchange (reciprocal transactions) and (2) determining whether a contribution is conditional. WWCI adopted the new standard on a modified prospective basis and there was no impact to beginning of year net assets.

(r) *Upcoming Accounting Changes*

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which will supersede the current revenue recognition requirements in Topic 605, *Revenue Recognition*. The ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs

Notes to Financial Statements

incurred to obtain or fulfill a contract. The new guidance will be effective for WWCI's year ending June 30, 2021. The ASU permits application of the new revenue recognition guidance to be applied using one of two retrospective application methods: retrospectively to each period presented (full retrospective method) or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (the cumulative catch-up transition method). WWCI will most likely adopt the cumulative catch-up transition method if implementation of the standard does not result in a significant adjustment. During management's review of the various revenue streams, it was determined that the timing of revenue recognition on underwriting/advertising and national and local TV production contracts may have an impact on the timing of recognizing revenue. Additionally, there will be new disclosures related to revenue from contracts with customers.

In February 2016, FASB issued ASU 2016-02, *Leases*, which will supersede the current lease requirements in ASC 840. The ASU requires lessees to recognize a right of use asset and related lease liability for all leases, with a limited exception for short-term leases. Leases will be classified as either finance or operating, with the classification affecting the pattern of expense recognition in the statement of operations. Currently, leases are classified as either capital or operating, with only capital leases recognized on the statement of financial position. The reporting of lease related expenses in the statements of activities and cash flows will be generally consistent with the current guidance. The new lease footnote guidance will be effective for WWCI's year ending June 30, 2023 and will be applied using a modified retrospective transition method to the beginning of the earliest period presented. The new lease standard is expected to have a significant impact on WWCI's statement of financial position as a result of the various leases classified as operating leases. The new lease standard is expected to increase assets and lease liabilities upon adoption by the amount disclosed in Note 13. There is not expected to be a significant impact on expenses or cash flows.

In August 2018, the FASB issued ASU No. 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement*, which primarily removes and modifies Level 3 fair value measurement disclosures. This ASU is effective for WWCI's year ending June 30, 2021. Management does not expect the adoption of the ASU to have a significant impact on WWCI's financial statements.

In March 2020, the FASB issued ASU No. 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the Effects of Reference Rate Reform on Financial Reporting*, which addresses the accounting consequences that could result from the global markets' anticipated transition away from the use of the London Interbank Offered Rate (LIBOR). The ASU provides optional expedients and exceptions to contracts, hedging relationships, and other transactions impacted by reference rate reform. The provisions of the ASU are effective upon issuance and generally can be applied through June 30, 2022. WWCI has not yet been contacted by the bank to change the rate.

The FASB issued ASU No. 2020-07, *Not-for-Profit Entities (Topic 958): Presentation and Disclosures by Not-for-Profit Entities for Contributed Nonfinancial Assets*. ASU 2020-07 requires separate presentation and enhanced disclosures of contributed nonfinancial assets (in-kind donations). The new guidance will be effective for WWCI's year ending June 30, 2022 and will be applied using a retrospective basis.

(4) Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value as follows:

- Level 1 – Observable inputs that reflect unadjusted quoted prices for identical assets or liabilities in active markets as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data.
- Level 3 – Unobservable inputs that are not corroborated by market data. These inputs reflect management’s best estimate of fair value using its own judgment of the assumptions a market participant would use in pricing the asset or liability.
- Net asset value – Interests in investment companies at year end where the fair value of the investment held is estimated based on the net asset value per share (or its equivalent) of the investment company.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. WWCI’s assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The following table sets forth by level within the fair value hierarchy WWCI’s financial assets and liabilities that were accounted for at fair value on a recurring basis as of June 30, 2020 and 2019. WWCI’s assessment of the significance of a particular input to the fair value measurement requires judgment and may affect their placement within the fair value hierarchy levels.

WWCI's policy is to recognize transfers in and out of Level 1, 2, and 3 fair value classifications as of the beginning of the fiscal year of the change in circumstances that caused the transfer. There were several liquidations of investments of Longleaf & Alpha One Funds for Small Cap Level (1) during the year that ended June 30, 2020.

The following section describes the valuation techniques used by WWCI to measure different financial instruments at fair value and includes the level within the fair value hierarchy in which the financial instrument is categorized.

Level 1

Investments in securities traded on a national securities exchange are stated at last reported sales price on the day of valuation. These financial instruments are classified as Level 1 in the fair value hierarchy.

Level 2

Estimated fair values for large cap equity funds were based on similar investments that are traded on the secondary market.

Level 3

Beneficial interest in trust is stated at fair value. The fair value is based on the percentage of the trust designated to WWCI, applied to the fair value of the trust, which is based primarily on quoted market prices of its underlying assets. Changes in the fair value of the underlying trust assets, as determined by the trustees that hold and manage these assets, are recognized in the statement of activities in the period in which they occur.

The following tables present a reconciliation of the beginning and ending balances recorded for instruments classified as Level 3 in the fair value hierarchy as of June 30, 2020 and 2019.

The Beneficial interest in Trust pertains to an investment that is held in trust by a third party and cannot be redeemed until the year 2482.

Level 3 gains and losses (realized and unrealized) included in the changes in net assets for the period above are reported in investment earnings, net of expenses in the statement of activities. Level 3 unrealized gains and losses included in the changes in net assets that are still held as of June 30, 2020 for the period above are reported in investment earnings, net of expenses in the statement of activities.

The following table summarizes the fair value measurements of investments in other investment funds that calculate net asset value per share (or its equivalent) as of June 30, 2020 and 2019. The below investments are valued at net asset value and there are no unfunded commitments as of June 30, 2020 and 2019. The values are obtained from the individual fund managers and are reviewed regularly for continuity by WWCI's investment advisor.

(a) This category includes multi-strategy absolute return investments focused on probability-adjusted asset returns capturing the alpha in mispriced securities across conventional and alternative financial strategies. As of June 30, 2020 and 2019, all of the investments in this category have passed their initial lock up periods. The fair values of the investments in this category have been estimated using the net asset value per share of the investments.

(b) This category includes investments in Asia and Latin America's emerging markets debt and equity securities. As of June 30, 2020 and 2019, all of the investments in this category have passed their initial lock up periods. The fair values of the investments in this category have been estimated using the net asset value per share of the investments.

(c) This category includes investments in hedge funds that invest in both long and short positions, primarily in global equities. Management of the hedge fund has the ability to shift investments from value to growth strategies, from mid to large capitalization stakes and from a net long position to a net short position. The investments dominate exposure in global markets. As of June 30, 2020 and 2019, all of the investments in this category have passed their initial lock up periods. The fair values of the investments in this category have been estimated using the net asset value per share of the investments.

(7) Liens on Property and Equipment

WTTW acquired a portion of its technical equipment with the proceeds of grants received from the Public Telecommunications Facilities Program (PTFP). These grants provide that liens be placed upon this equipment for a ten-year period. The liens expired on various dates through 2020.

(8) Income Taxes

WWCI's management believes it will have an unrelated business income net operating loss of approximately \$1,000,000 for tax purposes for the year ended June 30, 2020 and that its unrelated business income net operating loss carryforward as of June 30, 2020 will be approximately \$12,284,000. Any net operating loss carryforwards generated in fiscal years prior to FY18 expire at various dates through 2038. Any net operating losses generated beginning in FY19 and going forward can be carried forward indefinitely. As a result of previously accumulated unrelated business net operating losses, no provision for income taxes was required in the accompanying financial statements for the fiscal years ended June 30, 2020.

(9) Line of Credit and Related Swap Agreement

WWCI had a line of credit agreement with PNC Bank N.A. to support working capital requirements. This agreement as of June 30, 2019 permits borrowings of up to \$5,000,000. Outstanding borrowings bore interest at the current LIBOR (2.33% as of June 30, 2019) plus 1.0%. This agreement was cross-collateralized and cross-defaulted with all other present and future obligations of WWCI. On June 5, 2020, WWCI entered into a new long-term line of credit agreement with CIBC Bank that replaces the long-term note and revolving line of credit agreement with PNC Bank N.A. The CIBC line of credit agreement is used to support working capital requirements and expenditures on long-term capital projects. This agreement as of June 5, 2020 permits borrowings of up to \$30,000,000. Outstanding borrowings bear interest at current LIBOR (0.16% as of June 30, 2020) plus 1.5%. This agreement is collateralized primarily with the Board Designated Unrestricted Endowment and expires June 5, 2027. There are minimum debt service coverage ratio and liquidity ratio covenants WWCI is required to meet according to the debt agreement. The loan is non-amortizing but has a provision that requires \$5M of availability for 30 days during the fourth quarter of the fiscal year. As of June 30, 2020, WWCI had \$15.2M of borrowing under the CIBC line of credit.

WWCI entered into a swap agreement with CIBC Bank to align with the terms of the new debt agreement. The new swap agreement is effective as of July 5, 2020 and terminates June 5, 2027. Per the agreement, WWCI will pay a fixed annual rate of 0.78% and receive floating 1-month USD-LIBOR. The floating rate is floored at 0.00% until July 5, 2022. This swap arrangement replaces a previous swap agreement that aligned to the prior loan payable with PNC Bank N.A.

(10) Paycheck Protection Program Loan

On April 8, 2020, WWCI received a Paycheck Protection Program term note through CIBC Bank. The note was issued pursuant to the Coronavirus Aid, Relief, and Economic Security (CARES) Act's Paycheck Protection Program. The note structure required WWCI officials to certify certain statements that permitted WWCI to qualify for the loan and provides loan forgiveness for a portion up to all of the borrowed amount if WWCI uses the loan proceeds for the permitted loan purpose described in the note agreement; the portion not forgiven will require WWCI to pay back this amount in full after two years, under 18 equal monthly principal installment payments beginning after the ten-month deferral period, with interest at 1.00%. Under this payment structure, WWCI would make principal payments on the loan for the years ended June 30, 2021, June 30, 2022, and June 30, 2023 of \$764,022, \$1,846,688, and \$1,085,790, respectively. WWCI has the right to prepay any amount outstanding at any time without penalty.

Campaign restrictions noted above are for WWCI's Imagining More Campaign. The campaign has three distinct pillars. The three pillars of the Imagining More campaign are More Storytelling (programming on all our platforms), More Possibility (technology, infrastructure, and endowment), and More Community (community engagement). Releases from funds with donor restrictions to funds without donor restrictions are outlined by pillar below:

	<u>2020</u>	<u>2019</u>
More Storytelling	\$ 2,699,437	\$ 4,739,511
More Possibility	-	1,172,941

In addition, a release from funds with donor restrictions of \$433,560 to funds without donor restrictions was made in the category of Opera broadcasts.

(12) Endowment

WWCI's endowment consists of seventeen individual funds and includes both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. As required by US GAAP, net assets associated with endowment funds are classified and reported based on existences or absences of donor-imposed restrictions.

WWCI is subject to the State Prudent Management of Institutional Funds Act (SPMIFA) and, thus, classifies amounts in its donor-restricted endowment funds as net assets with donor restrictions because those net assets are time restricted until the Board of Trustees appropriates such amounts for expenditures.

Notes to Financial Statements

Most of those net assets are also subject to purpose restrictions that must be met before reclassifying those net assets to net assets without donor restrictions. The Board of Trustees of WWCI has interpreted SPMIFA as not requiring the maintenance of purchasing power of the original gift amount contributed to an endowment fund, unless a donor stipulates the contrary. As a result of this interpretation, when reviewing its donor-restricted endowment funds, WWCI considers a fund to be underwater if the fair market value of the fund is less than the sum of (a) the original value of initial and subsequent gift amounts donated to the fund and (b) any accumulations to the fund that are required to be maintained in perpetuity in accordance with the direction of the applicable donor gift instrument. WWCI has interpreted SPMIFA to permit spending from underwater funds in accordance with the prudent measures required under the law. Additionally, in accordance with SPMIFA, WWCI considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- 1) The duration and preservation of the fund
- 2) The purposes of the donor-restricted endowment funds
- 3) General economic conditions
- 4) The expected total return from income and appreciation of investments
- 5) Other resources of the organization
- 6) The investment policy of WWCI

WWCI has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that WWCI must hold in perpetuity or for a donor-specified period(s) as well as board-designated funds. Four percent of the average fair value of the investments held by WWCI for the prior 12 quarters is available for operations. The board approved a 4% operating transfer totaling \$1,736,000 in 2020. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of the S&P 500 index while assuming a moderate level of investment risk. WWCI expects its endowment funds to provide an absolute return measured over a three-year period of the greater of 8% or CPI plus 5%. This is consistent with WWCI's objective to maintain the purchasing power of the endowment assets as well as to provide additional real growth through new gifts and investment return. WWCI's investment objective is to increase purchasing power while reducing, to the greatest extent possible, the possibility of loss over a three-year cycle. A secondary objective is to have sufficient degree of flexibility in order to meet unanticipated demands and changing environments. Diversification of assets will ensure that adverse or unexpected results from one security or security class will not have a detrimental impact on the entire portfolio. Actual returns in any given year may vary from this amount.

Funds with Deficiencies

From time to time, the fair value of the assets associated with individual donor-restricted endowment funds may fall below the level that the donor or SPMIFA requires WWCI to retain as a fund of perpetual duration. Deficiencies of this nature are reported in net assets with donor restrictions. There were no deficiencies as of June 30, 2020.

(13) Lease Commitments

WWCI leases the land upon which WTTW's and WFMT's general office and studio building is situated, as well as transmission and antenna space. WWCI incurred aggregate rental expense of approximately \$791,000 and \$759,000 for the years ended June 30, 2020 and 2019, respectively. The future minimum payments due under not cancelable operating leases in effect as of June 30, 2020 are as follows:

Year ending June 30:	
2021	\$ 972,000
2022	990,000
2023	1,020,000
2024	1,050,000
2025	1,054,000
Thereafter (expires in 2062)	8,396,000
	<u><u>\$ 13,482,000</u></u>

The future minimum payments above may be reduced by up to \$1,977,000 for underwriting that WWCI has contracted to provide a certain lessor in lieu of cash rental payments. WWCI recognized approximately \$237,000 and \$230,000 in lease barter revenue and expense during the years ended June 30, 2020 and 2019, respectively.

(14) Retirement Plan

All eligible employees are included in the WWCI defined contribution retirement plan. Under this plan, eligible employees may voluntarily contribute up to 6.00% of their base compensation to the plan for the years ended June 30, 2020 and 2019. Such contributions are matched by WWCI up to 6.00% for all employees for the years ended June 30, 2020 and 2019. All contributions are used to purchase mutual funds and individual annuity contracts. The amounts contributed and charged to expense for the years ended June 30, 2020 and 2019 was \$535,501 and \$509,771, respectively.

(15) Contingencies

WWCI is subject to potential legal actions which arise in the ordinary course of business. In the opinion of management, based upon opinions of legal counsel, the disposition of all potential or threatened claims will not have a material impact on the financial position of WWCI.

(16) Supplemental Cash Flow and Other Information

Cash payments for interest amounted to \$567,815 and \$658,170 for the years ended June 30, 2020 and 2019 respectively. Interest expense was \$542,444 and \$663,538 for the years ended June 30, 2020 and 2019 respectively.

As of June 30, 2020 and 2019, WWCI purchased broadcast, production and information technology equipment in the amounts of \$67,751 and \$145,970, respectively, which was included in accounts payable.

(17) Liquidity and Availability of Financial Assets

The following table reflects WWCI's financial assets as of June 30, 2020 and 2019, reduced by amounts not available for general use because of contractual or donor imposed restrictions within one year of June 30, 2020 and 2019. Amounts not available include amounts set aside for long-term investing in the board-designated endowment fund that could be drawn upon if the governing board approves that action. However, amounts that are already appropriated from either the donor-restricted endowment or board designated endowment for general expenditure within one year of June 30, 2020 and 2019 have not been subtracted as unavailable.

Endowment funds	<u>(33,601,435)</u>	<u>(36,710,106)</u>
Total restricted financial assets at June 30, 2020 and 2019	<u>(48,314,390)</u>	<u>(54,286,494)</u>
Financial assets available to meet cash needs for general expenditures within one year	<u>\$ 6,785,982</u>	<u>\$ 2,740,475</u>

WWCI is partially supported by restricted contributions. Because a donor's restriction requires resources to be used in a particular manner or in a future period, WWCI must maintain sufficient resources to meet those responsibilities to donors. Thus, financial assets may not be available for general expenditures within one year. As part of WWCI's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations come due. It is WWCI's policy to have 14 months of operating expenses, calculated using annual budget amounts exclusive of distributions and major expenses available for current operations. The shortfall or surplus amounts on hand are applied to the Quasi Board Designated endowment fund, upon approval by WWCI's chief financial officer. In the event of an unanticipated liquidity need, WWCI could also draw upon its \$30 million line of credit, as described in note 9.
